

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

1. IDENTIFICATION OF THE SUBSTANCE OR MIXTURE AND OF THE SUPPLIER

Material name : LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Recommended use

A special multi-purpose DIREC-TO-METAL paint that combines primer and top coating

in 1 for all surfaces. No need for primer. Quick drying. Excellent adhesion. Good covering with high hiding power. Heat resistant up to 160 °C. Anti-rust and long-lasting protection

against corrosion and abrasive under an aggressive environment.

Great to apply to all surfaces e.g. galvanized steel, stainless steel, aluminium,

brass, copper, cement, wood, plastic, etc.

Supplier : U.R. Chemical Co., Ltd.

81, Moo 11, Tambol Bang-pla, Amphur Bang-plee Samutprakan 10540, Thailand

Telephone : +66 2 312 1415-9

Fax : +66 2 312 1048

Emergency Telephone number +66 2 312 1415

2. HAZARD IDENTIFICATION

GHS Classification : - Flammable liquids Category 2

Skin Irritation Category 2

Eye Irritation Category 2A

Carcinogenicity Category 2

Toxic to Reproduction Category 2

Specific Target Organ Toxicity Category 3

(Single Exposure)

- Specific Target Organ Toxicity Category 2

(Repeated Exposure)

- Acute hazards to the aquatic environment Category 2

GHS Label Elements

Symbol (s)

Signal words : DANGER

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

Physical Hazard H225 Highly Flammable liquid and vapour. Health Hazard H315 Causes skin irritation. H319 Causes serious eye irritation. H351 Suspected of causing cancer. H361 Suspected of damaging fertility or the unborn child. H336 May cause drowsiness and dizziness. Environmental Hazard H401 Toxic to the aquatic life. **GHS Precautionary** Statement Prevention P210 Keep away from heat/ sparks/ open flames/ hot surfaces/ no smoking. P240 Ground/ bond container and receiving equipment. P241 Use explosion-proof electrical/ ventilating/ lighting equipment. P242 Use only non-sparking tools. P243 Take precautionary measures against static discharge. P280 Wear protective gloves, eyes and face protection equipment. P201 Obtain special instruction before use. Do not handle until all safety precautions have been read and P202 understood. P271 Use only outdoors or in a well-ventilated area. P260 Do not breathe dust/ fume/ gas/ mist/ vapours/spray. P264 Wash thoroughly after handling. Avoid release to the environment. P273 Response P303+P361+P362 IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing and wash before reuse. P352+P353 Wash with plenty of soap and rinse skin with water/ shower. P332+P313 If skin irritation occurs: Get medical advice/ attention. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if presented and easy to do. Continued rinsing. P337+P313 If eye irritation persists: Get medical advice/ attention. P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P308+P314 If exposed or concerned: Get medical advice/ attention if you

P370+P378

In case of fire: Use appropriated media for extinction.

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

Storage	- P403+P235	Store in a well-ventilated place. Keep cool.
	- P233+P405	Keep container tightly closed. Store locked up.
Disposal	- P501	Dispose of contents/ container to appropriate waste reclaimer in
		accordance with local and national regulations.

3. COMPOSITION/ INFORMATION ON INGREDIENTS

Hazardous Components

Components	CAS No.	% w/w	Hazard Category		
Toluene	108-88-3	10 – 25%	- Flammable	Liquids	Category 2
			- Skin Irritation	n	Category 2
			- Toxic to Rep	oroduction	Category 2
			- STOT (SE),	Narcotic Effect	Category 3
			STOT (RE)		Category 2
			- Aspiration H	lazard	Category 1
			- Acute Aqua	tic	Category 2
Xylene	1330-20-7	5 - 13%	- Flammable	Liquid	Category 3
			- Acute Toxic	- Oral	Category 5
			- Acute Toxic	- Dermal	Category 4
			- Acute Toxic	- Inhalation	Category

4. FIRST-AID MEASURES

Inhalation : Remove to fresh air, if rapid recovery does not occur, transport to nearest medical facility for

additional treatment.

Skin contact : Remove contaminated clothing. In a shower, wash affected area with soap and water at least

15 minutes. Seek medical attention if irritant occurs or persists. Wash clothing before reuse.

Eye contact : Remove contact lenses, if present. Immediately flush eyes with plenty of clean running water

at least 15 minutes while holding eyelids open. If eye irritation, burning sensation, redness,

swelling and/ or blurred vision. Transport to the nearest medical facility for additional

treatment.

Ingestion : If swallowed, do not induce vomiting, transport to the nearest medical facility for additional

treatment. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media : Foam, water spray or fog. Dry chemical powder, carbon dioxide sand or earth may be used

for small fires only.

Unsuitable extinguishing : Do not use water in a jet.

Specific hazard arising

from chemicals

The combustion can emit the irritating and toxic vapors/fumes as carbon monoxide, carbon

dioxide. The vapor is heavier than air, spreads along the ground and distant ignition is

possible.

Protective equipment &

precautions for fire fighters

Wear protective clothing and self-contained breathing apparatus.

Additional advice : Keep adjacent containers cool by spraying with water.

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, Protective equipment and Emergency procedures

 Avoid contact with eyes, skin and clothing by using the suitable protective equipment as required.

Environmental precautions

Use appropriate containment (of product and firefighting water) to avoid environmental contamination. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers.

Authorities should be notified if reportable quantity release occurs.

Method and material for containment and clean up

For small liquid spills (< 1 drum): transfer by mechanical means to a labelled, sealable container for product recovery or safe disposal.

For large liquid spills (> 1 drum): Perform with same method for small liquid spills. Retain as contaminated waste. Recover or recycle if possible.

7. HANDLING AND STORAGE

Precautions for safe handling

Avoid inhale vapour and/or mist. Avoid contact with skin, eye and clothing.

Only use in a well-ventilated area. Wash thoroughly after handing. Do mot smoke. Remove ignition sources. Avoid sparks. Keep container closed when not in use. Handing temperature: Ambient.

Conditions for safe storage/ Including any incompatability

Keep away from aerosol, flammables, incompatible materials such as oxidizing agent, corrosive and other flammable products. The container should be labelled and keep tightly closed. Keep in a well-ventilated place. Keep cool.

Storage temperature: Ambient.

Recommended materials Unsuitable materials Container advice

For container, use mild steel or stainless steel. Avoid prolonged contact with natural, butyl or nitrile rubble. Containers, even those that have been emptied can contain explosive vapours.

Do not cut, drill, grind, weld or perform similar operation on or near containers.

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

8. EXPOSURE CONTROL/ PERSONAL PROTECTION

Threshold limit for exposure control

Occupation exposure limits

Material ——	ACG	– Remark	
	TWA	STEL	– Remark
Toluene	20 ppm	-	
Ethylbenzene	20 ppm	-	
Xylene, Mixed isomers	100 ppm	150 ppm	
n-butyl acetate	150 ppm	200 ppm	
Butyl glycol ether	20 ppm	-	
n-Butanol	20 ppm	-	

Occupation exposure limits

: Not available

Appropriate engineering control

Select controls based on a risk assessment of local circumstances. Appropriate measures include: Use sealed systems as far as possible. Adequate ventilation to control airborne concentrations below the exposure guidelines/limits are recommended.

Individual protection measures

Respiratory protection

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter. Select a filter suitable for organic gases and vapours [boiling point >65 °C (149 °F)] meeting EN14387. Where respiratory protective equipment is required, use a full-face mask. Where air-filtering respirators are unsuitable (e.g., airborne concentrations are high, risk of oxygen deficiency, confined space) use appropriate positive pressure breathing apparatus.

Hand protection

: Using gloves constructed of chemical resistant materials such as heavy nitrile rubber if frequent or prolonged contact is expected.

Neoprene or PVC gloves also be using in case of incidential contact or splash protection.

Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly.

Eye protection

: Chemical splash goggles (chemical monogoggles). Eye washes and showers for emergency use are recommended to the work area.

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

Protective clothing

Protective gloves, safety shoes and boots are recommended.

Remark

Personal protective equipment is not considered to long term solution of exposure

control.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Viscous liquid in accordance with LOBSTER 4 IN 1 catalogue.

Odor : Characteristic odor.

Initial Boiling Point : Not available

Melting Point : Not available

Flash point : 12 - 14 °C (Closed Cup)

Viscosity : 80 – 90 KU at 25° C

Specific Gravity (water = 1) : 0.900-1.300 at 25° C

% Non-volatile : 45 – 50%

Water solubility : Immiscible

10. STABILITY AND RELIABILITY

Chemical stability : Stable under normal conditions of use.

Possibility of hazardous reaction : Not available

Condition to avoid : Avoid from heat, sparks, open flames and other ignition sources.

Incompatible materials : Strong oxidizing agent

Hazardous decomposition

products

Thermal decomposition is highly dependent on conditions. A complex mixture of airbone solids, liquids and gases, including carbon monoxide, carbon dioxide and other organic

 $compounds\ may\ be\ evolved\ when\ this\ material\ undergoes\ combustion\ or\ thermal\ or\ oxidative$

degradation.

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

11. TOXICOLOGICAL INFORMATION

Basis of assessment Information given is based on product data, mixtures of product and/ or the similar product

and/ or ingredients.

Acute oral toxicity : Low toxicity: LD50 > 5,000 mg/kg

Acute dermal toxicity : Expected to be low of toxicity.

Acute inhalation toxicity : Expected to be low of toxicity if inhaled.

Skin corrosion/ irritation : Causes irritation to skin. Prolong or repeated exposure may cause skin dryness or dermatitis.

Sensitisaton : Not available

Serious eye damage/ irritation : Risk of serious eye damage.

Respiratory tract irritation: High concentration of vapor exposure may cause the irritation of respiratory tract.

Aspiration hazard · Not available

Germ cell mutagenicity : Not mutagenic.

Carcinogenicity : Not carcinogenic

Reproductive toxicity : Suspected of damaging fertility or the unborn child.

Does not impair fertility.

Specific target organ toxicity

-Single exposure

· Vapors may cause drowsiness and dizziness

Specific target organ toxicity -Repeated exposure

Prolonged or repeated exposure affects the Central Nervous System and the respiratory

system. Effects were seen at high dose only.

Visual system: may cause decreased color perception. These subtle changes have not been

found to lead to functional colour vision deficits.

 $\label{problem:prolonged} \mbox{ Auditory system: prolonged and repeated exposures to high concentrations have resulted in } \\$

hearing loss in rats. Solvent abuse and noise interaction in the work environment may cause

hearing loss.

LOBSTER 4IN1 Multi-purpose Acrylic Resin Paint & Primer in 1 (Gloss)

Version: 1.0

Date of Issue: 03.01.2022

12. ECOLOGICAL INFORMATION

Basis for Assessment : The information given below is based partly on a knowledge of the components and the

ecotoxicology of similar products.

Acute Toxicity . Not available

 Fish
 Toxic: LC/EC/IC50 1 - 10 mg/I

 Aquatic Invertebrates
 Toxic: LC/EC/IC50 1 - 10 mg/I

Algae Practically nontoxic: LC/EC/IC50 > 100 mg/l

(The information is based on hazard component: Toluene)

Mobility The product can be adsorbed on soil and partitioning to water. This may cause the

contamination in ground water.

Persistence/degradability

The volatile substances are readily biodegradable by photo-chemical reaction

in air while the solid parts are expected to be slow rate of biodegradation.

Bioaccumulative potential . Bioaccumulation is unlikely.

13. DISPOSAL CONSIDERATION

Material disposal : Recover or recycle if possible. It is responsibility of the waste generator to determine the toxicity

and physical properties of the material generated to determine the proper waste classification

and disposal methods in compliance with applicable regulations. Do not dispose into the

environment, in drains or in water courses. Waste product should not be allowed to contaminate

soil or water.

Container disposal : Disposal should be in accordance with applicable regional, national, and local laws and

regulations. Send a disposal container to drum recover or metal reclaimer.

14. TRANSPORT INFORMATION

	ADR /RID	IMDG	IATA
